## THE HISTORY OF THE BICYCLE

The bicycle is a two-wheeled vehicle that has been a popular mode of transport for over 150 years. It was first invented in the 18th century and has since become one of the most common forms of personal transportation. The bicycle is a simple machine that can be used for a variety of purposes, from commuting to recreation. It is a versatile and efficient mode of transport that has helped to revolutionize the way we travel.
